DETAILED ACTION

Response to Amendment

Specification

The abstract of the disclosure is objected to because the abstract should reflect the subject matter being claimed and be 150 words or less. Correction is required. See MPEP § 608.01(b).

Claim Objections

Claim 4 is objected to because of the following informalities: There is no antecedent basis for administering drug in the specification. It appears that "administrating" is a typo and should be "administering". Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 4-5, and 7-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims recite that the evaporating step and the hardening step are separate steps. The disclosure (see page 6 of the specification) discloses that the hardening step is a result of the evaporation step. The claims should be amended to more accurately claim the process.

Allowable Subject Matter

Claims 1,4-5, and 7-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
